- As detailed within the Transportation Services Agreement (TSA) as amended, uncommitted revenue for volumes up to and including 162,000 bpd and 75% of uncommitted revenue for volumes over 162,000 bpd will be refunded back to all shippers at the end of each full calendar year net of committed shipper volume credits and the true-up between forecast and actual revenue requirement. To the extent the actual revenue for the base period is less than (greater than) the true-up revenue requirement for the calendar year, Carrier shall recover (refund) from each Shipper its share of the difference based on such Shipper's proportionate contribution to the actual revenue for the said calendar year. The annual true-up, as detailed within the TSA as amended, will occur as soon as reasonably practicable after the end of each calendar year.
- The tolls are published on both a per barrel and a per cubic metre basis. Shippers will be invoiced on a per cubic metre basis.
